ImageMaster USB Camera Setting in XDR

1. Select Device:
   a) For Windows 7 choose "ImageMaster USB"
   b) For Windows XP choose "USB Video Device"
2. Video Settings: Click to open pull-down menu
3. Video Quality: Choose "Video Quality" to open color adjusting window (see below)
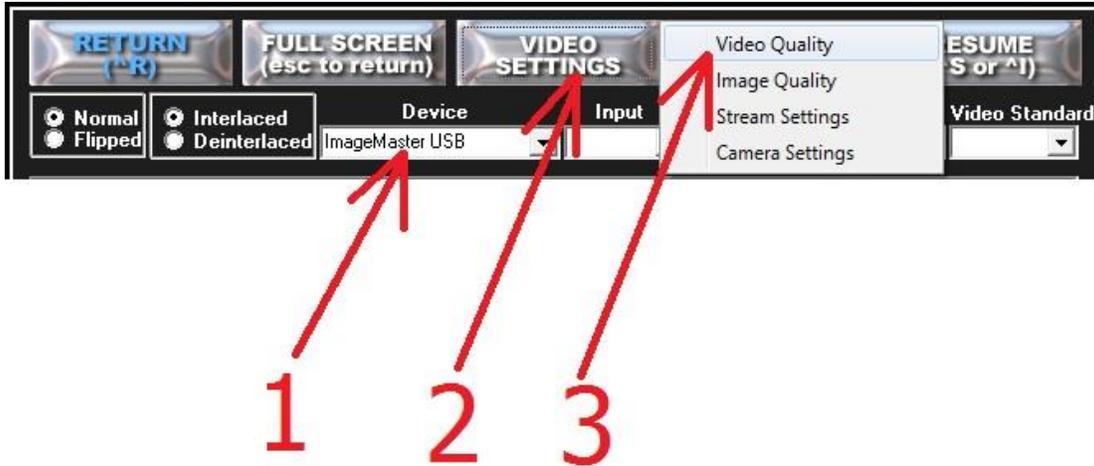

4. Color Setting: Uncheck the "Auto" box for White Balance, slide adjusting bar (#5) up to 3800 (earlier versions w/out digit box, adjust to your liking) then click "Close" (#6)
